Soundzabounds

Congratulations! Your school has been accepted to the Royalty Free Music.com Music Grant Program. Our Music Grant Program provides music and sound effects for colleges, universities, and other education related types of establishments at no cost. By participating, your staff and students will be able to use our award-winning music for a variety of non-profit educational projects such as background music in theatrical productions, tech-based programs, film, television, PowerPoint presentations, web sites, and many more.

The process is quite simple:

1. You must create a link (either a text link or use our banner http://www.royaltyfreemusic.com/layout07/header/home_header_l.gif) on your school's site to <http://www.royaltyfreemusic.com/>. Put the link on your media resource page or wherever the information

and be easily found.

2. If you are doing a text link, please let your text say something similar to the following : Award winning library of royalty-free music from RoyaltyFreeMusic.com

3. Once the link has been set up, all that your staff and/or students need to do is click on that link which directs them to our home page. They can then enter the username and password when prompted. (You have not received this yet!)

If you wish to proceed, just reply to this email with the URL where the link to our site will appear. Once the link has been verified, we will then email you the username and password and the page can be up and running in a matter of minutes.

Thank you for being a Royalty Free Music.com customer. If you have any questions, please feel free to contact me.

Kind Regards,
Pam
